**Subject:** Microsoft Settlement

Please do not agree to this settlement. Microsoft has shown again and again that they will not play by the rules, and this settlement does not go far enough to ensure a level playing field.

In particular, my concern is for the lack of limitations on what Microsoft can include in their "operating system". They have already killed off several companies by copying their concept and integrating it into their system in such a way that few companies can compete. The longer this goes on, the worse it will get.

Thanks for your time and attention to this matter.
